Two music-based/centered movies on the way to **Sundance**, featuring a couple actresses we really dig. Onwards...

Anne Hathaway goes indie with "**Song One**," which features music written by former **Rilo Kiley** frontwoman and solo artist **Jenny Lewis** alongside her boyfriend **Johnathan Rice**. **Johnny Flynn**, **Mary Steenburgen** and **Ben Rosenfield** co-star in the **Kate Barker-Froyland** directed film. Synopsis below:

When an accident leaves her brother comatose, a woman sets out to retrace his life as an aspiring musician, leading to an unexpected relationship against the backdrop of Brooklyn's music scene.
